

Head'n Out[®]

ANTI ROUND-OUT gel

Head'n Out works with
all types of screws.

PROCESS BENEFITS

Tool Life: Extends the life of tools by preventing unwanted galling and stripping which damages the driver head.

Non-Corrosive: Because Head'n Out is not petroleum or silicone based it will not cause corrosion.

Pro-Active Maintenance: Use before there is an issue to prevent costly repair and removal procedures.

PRODUCT APPLICATIONS

OTHER NOTES

- Head'n Out is normally applied within the countersink and along the top surface of the fastener.
- Head'n Out is available from our Amazon Account or from our blending facility directly in a poly squeeze tube.
- Shelf life of Head'n Out is 5 years when stored below 68 or above 85 degrees for any length of time, otherwise much longer.
